Each of Contesting Delegations to Convention Believes It Will Win-Old Guard Interested.

CHICAGO, June 3.—Saturday night in that support will be swept from under coming politicians makes even the old timers hold their ears and yell "Enough." To greet the newcomers there is an advance guard of press agents and button men who endeavor the candidate who will win is the man whose face appears on the button, And buttons lie knee deep on the floor showing the faces of every favorite son and every honest to goodness candi-

Arr tos Great Interest.

211 sorts of interest attaches to the three-cornered row in which the three District of Columbia aspirants to honor on the convention floor are now grip ped. The understanding is late tonigh that the committee on credentials will not be able to reach a hearing on the District matter until Monday, the pres-

ent intention being not to sit tomorrow. This may be changed later.

There are some old fellows here who haven't missed a convention since Noah's ark landed, who say that there never has been so much fuss kicked up about a little delegation like the one from the District of Columbia. In connection with this rumpus it is quite possible to hear that each delegation will be seated. The Bradshaw-Marshall outfit makes the claim that if it isn't will be seated. The Bradshaw-Marshall outfit makes the claim that if it isn't seated, then no one will be. The Hogan-Williston coterie has been hard at work at the Coliseum all day, and it returns to its headquarters in the hotel smiling all over its face and swearing that the laurels of victory will perch on its banners. The Miller-Chase boys declare that they know exactly where they stand, which is probably true, but when said in tones of ominous import it leads the uninitiated in conventions to believe that they have what is called the right dope.

Now when this little row is aired in the credentials committee the indications are that Mr. Miller and Mr. Hogan will make so much smoke in fighting each other that the Bradshaw-Marshall delegation will endeavor to sneak in under cover of the battle and be seated while the two others are wran-

There was some talk today of a plan to adopt the party platform before nominating the candidate for President in the convention, but this suggestion brought a vigorous protest from the friends of Hughes, who professed to see in the move a scheme to injure the chances of their candidate.

One of the developments that aroused interest today was a suggestion made by Alexander P. Moore of Pennsylvania, who is a delegate and an ardent Roosevelt supporter. Mr. Moore said he thought it would be a fine thing if

HOT WATER AND "ANURIC" BEFORE MEALS—AND HEALTH

All people in America and especially those who are past middle age are prone to eat too much meat and in ionsequence deposit lime salts in their arteries, veins and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air or drink enough pure water in order to sweat freely and excrete impurities thru the skin. Dr. Pierce has conducted experiments and thoroughly tested a uric acid solwent at his Invalids' Hotel and Surgical Institute which he is convinced is many times more potent than lithia—this he named "Anuric." It can be had at almost all drug stores by simply asking for Dr. Pierce's Anuric for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleep-lessness due to constant need of getting out of bed at night.

Throughout the day members of the regular delegation and of the contesting delegation, which claims to merit recognition because negroes were barred from a New Orleans hotel in which the state convention was helf, were closeted with conciliators. Tonight representatives of the contestants declared they had been offered half of the delegation and other concessions, but had refused to accept the proposition. They demanded the seating of their entire delegation.

This contest has given the national committee more concern than any other. Early in the hearings it was intimated that to discourage contesting delegations from the south the committee would seat one delegation or the other unless an amicable agreement to divide the seats was reached. In other years, two delegations from Louisiana have been seated, but both the inclination of the committee and the refusal of the contestants stands in the way of such a settlement this year. CUMMINS BILL PASSED.

Senate Adopts Amendment to Interstate Commerce Law.

Senator Cummins of Iowa yesterday afternoon succeeded in having the Senate pass his bill amending the interstate commerce laws so as to exempt baggage carried on passenger trains from the ruling of the interstate com mission to the effect that carriers have the right to compel shippers to state the true value of the goods shipped, and that if the true value is not stated the shippers lay themselves open to criminal prosecution. The bill passed yesterday amends a law enacted about year ago, which was designed to compel the carriers to pay full dame ages on goods carried by them, without regard to any agreement sought to have been made by the railroads.

The ruling of the interstate commerce commission that this law was applicable to baggage carried on passenger tickets caused much inconvenience to travelers in this country and created much criticism.

If you saw this Mid-Year Mitchell without knowing the facts you would say that such a car at our price is impossible. For it undersells any other car of its size and power and grade.

Then you might say-when you saw all the extras-that somewhere we had skimped. So we have to tell you of John W. Bate to give you a right conception.

We Have Saved 50%

Years ago John W. Bate, the effincy engineer, was brought to this

organization. As an efficiency genius he stands at the top in the metal-working lines.

He has built here a model efficiency plant. He has equipped it with thousands of time-saving machines. Now it represents an investment of \$5,000,000.

He has, in this way, cut our factory

costs in two. We are building the Mitchell for less than a like car would cost anywhere else in the world. And all of our extras-beauties, luxuries and conveniences-are paid

for through factory savings. 26 Extras Free

This Mid-Year Mitchell has 26 unique features. Each is an extra which all motorists want. But in other cars they cost an extra price.

These include a power tire pump, reversible headlights, light in the tonneau, a locked compartment, cantilever springs, an extra-cost carburetor. You will find in this Mitchell, at no extra price, 26 such attractions which other cars omit.

This Mid-Year Mitchell, in its new ideas and its extras, shows you one result of efficiency. All this added value is due to John W. Bate, who has cut our factory costs in two.

John W. Bate's work now seems done. He says he has reached his limit, in the factory and the car. He would never permit us to mention his efforts until they reach this completion.

With all these things together, the Mid-Year Mitchell is an interesting sight. No motor car lover should miss it. It has all that men know to make a car handsome, enduring and complete. Your Mitchell dealer will show you a hundred perfections you never have thought of, perhaps.
